IOWA TEACHER LICENSURE REQUIREMENTS

Every practitioner employed in a public school is required to hold a license valid for the type of position in which he/she is employed. Each teacher of pupils of compulsory school age who works in a private school is required to hold a license.

Each teacher employed in a school district, in addition to holding the appropriate type of license, must be assigned to teach subjects and give services in accordance with the standards of the Board of Educational Examiners.

For information concerning licenses and endorsements, address the Bureau of Practitioner Preparation and Licensure, Department of Education, Grimes State Office Building, Des Moines, Iowa 50319

AREA EDUCATION AGENCIES

Iowa has 12 area education agencies (AEAs). The AEAs function as an intermediate service unit and assist the Department of Education in providing services and support to school districts and to schools. The code numbers assigned to each AEA by the Department of Education appear opposite the agency name and address. The first two digits are the county number; they indicate where the administrative office is located. The number at the extreme right opposite the name of each administrator indicates the total years the administrator has held the position.

IOWA COMMUNITY COLLEGES

COMMUNITY COLLEGES

Each of the 15 community colleges offers a comprehensive program of arts and sciences or college transfer courses, vocational-technical programs, training and retraining programs for the workforce of Iowa's businesses and industries, and an expanding variety of adult education and non-credit courses for residents of each community college district. The code number assigned by the Department of Education appears opposite the community college and address. The first two digits of the code indicate the county in which the college's administrative office is located. The next four digits identify the community college. The number at the extreme right opposite the name of each administrator indicates the total years the administrator has held the position. *Indicates campuses.

NONPUBLIC SCHOOLS

Iowa has 200 accredited nonpublic schools. The code number assigned to each nonpublic school appears opposite the school name and address. The first two digits are the county code, followed by district and school codes. The enrollment is a student count taken on the third Friday in September of each year and represents only those students served in an educational program provided by the nonpublic school.

DISTRICT NAME CHANGES

Iowa has 370 public school districts. At the turn of the century, there were 4,873 local districts. It was the intention of the Consolidated School Law of 1906 that a statewide pattern of consolidation be realized, but the movement was very slow in developing. By 1910, only 10 consolidated districts had been created.

In 1922 there were 4,839 legally organized districts, and in 1953, 4,558 were still in existence. In that year legislation specified that it be "the policy of the state to encourage the reorganization of school districts into such units as are necessary, economical and efficient and which will insure an equal educational opportunity to all children in the state."

The final phase of the community school movement came in 1965, when the 61st General Assembly passed legislation requiring all areas of the state to become part of a legally constituted school district maintaining a high school by July 1, 1966.

Following are the names of closed or reorganized Iowa districts. The name in parentheses indicates the name of the reorganized district. This is a historical file. Many districts have reorganized more than once. Each of those reorganizations are recorded in this list. It may be necessary to follow the district through all reorganizations in this list before the present district name is found.

AEA CHAIRPERSON/DE LIAISON AND MEETING DATES

Each of the 12 area education agencies (AEAs) facilitates monthly meetings for all superintendents of the public school districts served by an individual AEA. A representative from each of these 12 superintendents' groups serves on the Superintendents' Advisory Council.

The monthly meetings provide opportunities for the superintendents to discuss common issues, to share ideas and solutions, to provide guidance and advice to the AEA administrator regarding needed services and to hear and discuss presentations on various educational matters. A Department of Education liaison is present at each superintendents' meeting to share communications from the Department.

SUPERINTENDENTS' ADVISORY COUNCIL

The Superintendents' Advisory Council was formed several years ago for the purpose of providing a direct communication link between district superintendents and the Director of the Department of Education. The Council advises the Director on potential policy and planning issues and also provides feedback to the Director on the impact or potential impact of actions of the Department of Education, the State Board of Education, and others.

The Council is composed of one superintendent from each area superintendents' group, one AEA administrator from the state, and a superintendent representing the Urban Network (the largest eight school districts in the state). For a one year transition, we will keep the membership of 15 superintendents. Next year it will be one representative from each of the 12 AEAs. The Council meets four to six times per year.
